WALL STREET TO-DAY

MONEY AT 7 PER CENT.

The Bank Statement and Government Reports.

WALL STREET, SATURDAY, NOV. 29-6 P. M. The stock market to-day was strong, though fluctuating in character and obedient to the many rumors which were intended to give it effect. Chief among the latter were those referring to the settlement of the Virginius difficulties through the Castelar government; but there are many who know that Castelar represents but a mere minority, is only a figurehead for a few and cannot control the masses of either Cuba or Spain, who, in their ignorance and braggadocio, would still insist on war. It is needless to say that there still a strong war feeling or that our people are generally awaiting national reparation, although it may lead to a fight. Castelar may have his place in our respect as a republican Spaniard, but the murdered Fry and the dead men for whom he pleaded hold our American hearts by stronger ties than those of mere respect. THE MONEY MARKET

to-day was active at the rates of 7 per cent currency and gold. Discounts remain unchanged. Foreign exchange closed steady, with prime nominal rates, at 107% for sixty days and 108% for short sight. The New York banks show a gain of \$710,000, and now hold \$36,420,000. Much of these gains, however, are due to the savings banks, which * have been compelled to dispose of their securities in order to meet demands upon them by poor depositors, who, suffering from the hardships of the time, have been compelled to withdraw their humble store. The aggregate has been very large, and the fact is no favorable comment upon the existing bank situation. It is to be further borne in mind that the season is at hand when drafts must be made from the West for the payment of the outlay incident to the movement of the pork crop. Money, therefore, ought not to be, in the parlance of the street, "easy," nor can the banks boast of much real etrength.

The following table shows the changes in the New York city banks this week, as compared with

The price opened at 109%, but was borne down to 108%, after which it rallied to 109% a 109%. The rates paid for carrying to-day were as follows: - 3-64, 1-16, 7, 6, and 7 per cent, gold. The final rate was 7 per cent. The market was largely affected by the kaledeiscopic rumor of the day, but the opinion is still strong, as is indicated by the price of gold, that we shall have either war or inflation,
